

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM SUPPLEMENTARY EXAMINATION FEBRUARY -2019
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Nursing b) Nausea c) Oliguria d) Pyrexia
- II. Fill in the Blanks:** **1x4=4**
a) Lack of oxygen in the tissue is _____
b) Inflammation of the oral mucus membrane _____
c) Gas in the gastrointestinal tract is _____
d) Agents that inhibits the growth of micro-organisms is _____
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Back care b) Causes of bed sore c) First aid epistaxis
d) Autoclaving e) Care the patients with fever
- IV. Answer the Following:** **1+2+4=7**
a) Define body mechanics
b) List the importance of body mechanics
c) Explain the nurse's role in moving the client **1+2+4=7**
- V. Answer the Following:**
a) Define bed bath
b) What are the purposes of bed bath
c) Explain the procedure of bed bath.

SECTION-II

- VI. Choose the correct answer from the following:** **1x 3=3**
a) The objects which are capable of transmitting diseases.
 i. Sepsis ii. Fomite iii. Asepsis iv. Pathogen
b) The Mechanical device is used to prevent foot drop is.
 i. Bed block ii. Foot rest iii. Knee rest iv. Back rest
c) Pus in the urine is.
 i. Anuria ii. Oliguria iii. Pyuria iv. Dysuria
- VII. State whether the following statements are TURE or FALSE** **1x4=4**
a) Drug used to destroy worms is antitussives.
b) Kicking the knee forward is seen in patellar reflex
c) Cone shaped fusible medicated mass is suppository
d) Increased respiratory rate is called as Tachypnoea
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) Health team b) Explain nursing as a profession
c) Nurse's role in maintaining records and reports
d) Nurse's role in feeding a patient orally e) Factors affecting blood pressure
f) First aid for insect bite
- IX. Answer the Following:** **2+4=6**
a) Define unconscious
b) Explain the nursing care for an unconscious patient
 or
a) Define Nursing process.
b) Explain the steps of nursing process.
- X. Answer the Following:** **2+6=8**
a) List the purpose of bed
b) Explain nurse's role in preparing open bed

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION AUGUST_2018
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Dyspnoea b) Asepsis c) Laxative d) Decubitus Ulcer
- II. Fill in the Blanks:** **1x4=4**
a) Instrument that is used to measure blood pressure is _____
b) Air cushion is used to prevent _____
c) Bleeding from the nose is termed as _____
d) Loss of appetite is termed as _____
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Oral Hygiene b) Universal precaution in infection control
c) Record and Reports d) Active and Passive exercises
e) Routes of drug administration f) Roles and responsibilities of a Nurse
- IV. Answer the Following:** **1+2+4=7**
a) Define normal body temperature
b) Write the different methods of checking temperature
c) Explain the Nursing management of patient with hyper pyrexia
- V. Answer the Following:** **1+2+4=7**
a) Write the meaning of discharge of patient
b) List the types of discharge
c) Explain in detail the discharge procedure

SECTION-II

- VI. Choose the correct answer from the following:** **1x 3=3**
a) The abnormal condition of the vertebral column characterized by an increased curvature of the lumbar spine.
i. Khyposis ii. Lordosis iii. Scoliosis iv. Osteoporosis
b) A drug that relieves fever.
i. Antipyretic ii. Antitussive iii. Analgesic iv. Antiemetic
c) Cleansing of the body cavity is called.
i. Instillation ii. Inhalation iii. Irrigation iv. Ingestion
- VII. State whether the following statements are TURE or FALSE** **1x4=4**
a) Lying on the abdomen is called as supine position
b) Naso gastric tube feeding is also called as gastric gavage
c) Bed bath is given for ambulatory patients
d) Difficulty in swallowing is known as dysphagia
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) Collection of urine specimen b) Sitz Bath
c) Methods of physical examination and the role of nurse in physical examination
d) types of Bandages e) Principles of bed making f) Diet in sick and illness
- IX. Answer the Following:** **2+4=6**
a) List the signs and symptoms of dying patient
b) Explain the nursing care of the dying patient
or
a) Define oxygen administration
b) Explain the procedure of administration of oxygen by mask method
- X. Answer the Following:** **2+6=8**
a) Define fracture
b) Explain the Nurse's role in providing first aid fracture of femur

KARANTAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM SUPPLEMENTARY EXAMINATION FEBRUARY 2018
1ST year paper – III FUNDAMENTALS OF NURSING

Duration: 3 Hours

Max.Marks: 75

SECTION-I

I. Give the meaning of the following: **1x4=4**
a) Nursing b) Pulse c) Parotitis d) Oliguria

II. Fill in the Blanks: **1x4=4**
a) Introduction of medicine or fluids into the vein is called _____
b) Examination by tapping the fingers on body is termed as _____
c) Increased respiratory rate over 24 breaths per minute is _____
d) Loss of appetite is otherwise known as _____

III. Write short notes on any FOUR of the following: **4x4=16**
a) Classification of hospital b) Records and Reports
c) Care of unconscious patient d) Surgical asepsis e) Principles of Nursing

IV. Answer the Following: **1+2+4=7**
a) Define bed bath
b) What is the purpose of bed bath
c) Explain the procedure of bed bath

V. Answer the Following: **1+2+4=7**
a) Define physical examination
b) What is purpose of physical examination
c) Explain the different methods of physical examination

SECTION-II

VI. Choose the correct answer from the following: **1x 3=3**
a) Florence Nightingale was born on. _____
 i. May 12th ii. May 1st iii. March 12th
b) Hospital acquired infection is known as. _____
 i. Droplet infection ii. Nosocomial infection iii. Opportunistic infection
c) The mechanical device used to prevent foot drop is. _____
 i. Bed block ii. Foot rest iii. Back rest

VII. State whether the following statements are TRUE or FALSE **1x4=4**
a) Heat regulation center is hypothalamus
b) Haematuria means blood in stool
c) Gastric lavage is the washing of stomach
d) Proctoscope is used to examine the ear

VIII. Write short notes on any FOUR of the following: **4x4=16**
a) Rights of administration of medication b) Method of disinfection
c) Factors affecting blood pressure d) Care of patient with breathing difficulty
e) Nursing Management of patient with retention of urine

IX. Answer the Following: **1+2+3=6**
a) What is exercise
b) Write the purpose of exercise
c) Explain the effect of exercise on different systems of the body

or

a) Define nursing process
b) List the steps of nursing process
c) Explain assessment in detail

X. Answer the Following: **1+3+4=8**
a) What is first aid
b) List the golden rules of first aid
c) Explain the first aid management in dog bite

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION AUGUST- 2017
1ST year paper – III FUNDAMENTALS OF NURSING

Duration: 3 Hours

Max. Marks: 75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Asepsis b) Gingivitis c) Hyperglycaemia d) Intermittent Fever
- II. Fill in the Blanks:** **1x4=4**
a) Lack of oxygen in the blood is called as _____
b) Bluish discolouration of skin is known as _____
c) The rules or principles that govern the right conduct in Nursing called as _____
d) Difficulty in swallowing is _____
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Suppositories b) Care of Rubber goods
c) Role of nurse in management of diarrhea d) Communication Process
e) Types of Reports
- IV. Answer the Following:** **1+2+4=7**
a) Define Catheterization
b) List the indication of Catheterization
c) Explain the procedure of Catheterization for a male Patient
- V. Answer the Following:** **2+5=7**
a) Define Admission
b) Explain in detail types of Admission
or
a) Define Comfort
b) Explain on any two position used for physical Examination

SECTION-II

- VI. Choose the correct answer from the following:** **1x 3=3**
a) Visual examination of the body is called as.
 i. Inspection ii. Auscultation iii. Palpation
b) Disease which spreads from one person to another is known as.
 i. Haemolytic disease ii. Genetic disease iii. Communicable disease
c) Increased blood pressure is known as
 i. Hyperthermia ii. Hypertension iii. Hyperpnoea
- VII. State whether the following statements are TRUE or FALSE** **1x4=4**
a) Hand washing is the only measure to control infection
b) Rabies is caused by Rat bite
c) Sublingual Drugs should be placed under the Tongue
d) Sterilization removes Spores and Pathogens
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) List the principles of bed making b) Sitz bath
c) Cold Application d) Nursing care patient with bed sore
e) Factors affecting pulse
- IX. Answer the Following:** **1+6=7**
a) Define drug administration
b) Explain various routes of drug administration
- X. Answer the Following:** **1+6=7**
a) Define first Aid
b) List the Aims and Principles of Bandaging

KARANTAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM SUPPLEMENTARY EXAMINATION FEBRUARY 2017
1ST year paper – III FUNDAMENTALS OF NURSING

Duration: 3 Hours

Max. Marks: 75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Disinfection b) Dehydration c) Health d) Insomnia
- II. Fill in the Blanks:** **1x4=4**
a) Pulse rate less than 60 beats per minute is called _____
b) Examination with the help of Stethoscope is called _____
c) The normal Blood pressure is _____
d) Inflammation of the tongue is called _____
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Care of dying patient b) Types and purposes of Position
c) Barrier of communication d) Care Unconscious client
e) Qualities of a Nurse
- IV. Answer the Following:** **1+2+4=7**
a) Define Pyrexia
b) Name the different sites for recording temperature
c) Explain the nursing care of a client with Pyrexia
- V. Answer the Following:** **1+2+4=7**
a) Define Decubitus Ulcer
b) List the causes of Decubitus Ulcer
c) Explain the role of nurse in care and prevention of Decubitus Ulcer

SECTION-II

- VI. Choose the correct answer from the following:** **1x 3=3**
a) Difficulty in breathing is called. _____
i. Apnoea ii. Orthopnoea iii. Dyspnoea vi. Techypnoea
b) Presence of sugar in the Urine is called. _____
i. Dysuria ii. Anuria iii. Glycosuria vi. Oliguria
c) Rabies is caused by. _____
i. Rat bite ii. Snake bite iii. Insect bite vi. Dog bite
- VII. State whether the following statements are TRUE or FALSE** **1x4=4**
a) Analgesic is drug for relieving pain
b) The duration of sitz bath is 15-20 minutes
c) Laryngoscopy is used to examine the Larynx
d) Hospital acquired infection is called Zoonotic Infection
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) Medical Hand washing b) Methods of physical examination
c) Health team
d) Characteristics of mentally health individual e) Cold application
- IX. Answer the Following:** **2+4=6**
a) Define Fracture
b) Write the causes and types of Fracture
c) Explain the first aid management of patient with fractured leg
- X. Answer the Following:** **2+6=8**
a) Define Steam inhalation
b) List the purposes of steam inhalation
c) Explain the procedure of steam inhalation by nelson's inhaler
or
a) Define Enema
b) List the different types of Enema
c) Explain the procedure of soap water Enema

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION AUGUST- 2016
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Emollient b) Asphyxia c) Splint d) Afebrile
- II. Fill in the Blanks:** **1x4=4**
a) The primary source of data is _____
b) The Plioneer of Modern Nursing is _____
c) Lack of roughage in the diet leads to _____
d) Bleeding from nose is known as _____
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Nursing management of client with dehydration
b) Sterilization Techniques c) Role of Nurse in discharge procedure
d) Menstrual hygiene e) Care in Rigor
- IV. Answer the Following:** **1+6=7**
a) Define Health
b) Explain about determinants of Health
- V. Answer the Following:** **1+2+4=7**
a) Define Cross infection
b) List the prevention of cross infection
c) Explain about barrier nursing
or
a) Define Insomnia
b) List the causes for Insomnia
c) Enumerate the nursing measures of induce Insomnia

SECTION-II

- VI. Choose the correct answer from the following:** **1x 3=3**
a) Benedict's solution is used in test of.
 i. Urine for albumin ii. Urine for sugar iii. Urine for ketone bodies iv. Urine for reaction
b) Dyspneic patient can have the best position is .
 i. Prone position ii. Left Lateral iii. Supine position iv. Flower's position
c) Anoxia means
 i. Absence of O₂ in tissues ii. Presence of oxygen in tissues iii. Lack of O₂ in tissues
 iv. oxygen in blood
- VII. State whether the following statements are TURE or FALSE** **1x4=4**
a) Random specimens are collected only at one time
b) Poison can be neutralized by using specific antidotes
c) Knee chest position is used to examine rectum
d) Heat regulation centre is hypothalamus
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) Health Care Team b) Importance of records and reports
c) Cold applications d) Prevention of Decubitus Ulcer
e) Care of Body after death
- IX. Answer the Following:** **1+2+4=7**
a) Define Incontinence of Urine
b) Enumerate the causes of Incontinence of urine
c) Write various methods to prevent and treat Incontinence of urine

KARANTAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM SUPPLEMENTARY EXAMINATION FEBRUARY- 2016
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Anorexia b) Hypoxia c) Foot drops d) Cyanosis
- II. Fill in the Blanks:** **1x4=4**
a) Inflammation of the oral mucous membrane is called _____
b) Total nursing care of a client is known as _____
c) Visual examination of the body is called as _____
d) The condition of abnormally high blood pressure is called _____
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Prevention of constipation
b) Comfort devices and their uses c) Enema
d) Nurses role in relieving retention of urine e) Routes of administration of medication
- IV. Answer the Following:** **1+2+4=7**
a) Define Bed
b) Name the different types of bed used in nursing
c) Explain the procedure in preparing a post-operative bed
- V. Answer the Following:** **1+2+4=7**
a) Define mental health
b) List the characteristics of a mentally healthy person
c) Discuss the promotion of mental health in Adolescents
- SECTION-II**
- VI. Choose the correct answer from the following:** **1x 3=3**
a) Increase the depth of respiration is _____
 i. Apnoea ii. Orthopnoea iii. Hyperpnoea iv. Tachypnoea
b) Respiratory centre is situated in _____
 i. Cerebrum ii. Medulla Oblongata iii. Mid brain iv. Hypothalamus
c) Sterilization by steam under pressure is called _____
 i. Fumigation ii. Autoclaving iii. Hot air oven iv. Boiling
- VII. State whether the following statements are TRUE or FALSE** **1x4=4**
a) Drugs used to prevent Nausea and Vomiting are Antiemetics
b) Painful micturition is called oliguria
c) One pint is equal to 500ml
d) Enuresis is the involuntary passing of urine during time
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) Care of the Rubber Goods b) Sitz bath and its purposes
c) Collection of specimen d) Nursing Measures to induce sleep
e) Characteristics of pulse
- IX. Answer the Following:** **1+3+4=8**
a) Define Catheterization
b) List the indications for catheterization
c) Explain the procedure of catheterization of a female patient
- X. Answer the Following:** **1+5=6**
a) Define First Aid
b) Explain the first aid management of a patient with Haemorrhage
 or
a) Define Unconsciousness
b) Write the nursing care of an unconscious patient

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION AUGUST- 2015
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Asepsis b) Decubitus Ulcer c) First Aid d) Auscultation
- II. Fill in the Blanks:** **1x4=4**
a) The inner part of the syringe is called _____
b) Lack of oxygen in the tissues is called _____
c) The mechanical device used to relieve cardiac Asthma is _____
d) Date can be classified as _____ and _____ data
- III. Write short notes on any FOUR of the following:** **4x4=16**
a) Importance of Records and Reports b) Holistic approach in nursing care
c) Nurses role in maintaining intake and output chart d) Disinfection techniques
e) Qualities of a good nurse f) Urine test for sugar and Albumin
- IV. Answer the Following:** **1+6=7**
a) Define feeding
b) Discuss the nurses responsibilities in feeding a helpless client orally
- V. Answer the Following:** **1+6=7**
a) Define Personal
b) Explain the role of nurse in maintaining Personal hygiene of a bed ridden patient

SECTION-II

- VI. Choose the correct answer from the following:** **1x4=4**
a) An Agent that has the power to kill bacteria.
 i. Bacteriostal ii. Bactericide iii. Bacteriostic
b) The Visual examination of the body is called.
 i. Palpation ii. Auscultation iii. Inspection
c) Fowler's position is used to relieve
 i. Dyspnoea ii. Abdominal pain iii. Back pain
d) The following is not a method of oxygen administration
 i. Oxygen hood ii. Oxygen Tent iii. Nebulizer
- VII. State whether the following statements are TURE or FALSE** **1x3=3**
a) Presence of blood in the urine is called Haematuria
b) Drugs used to stop vomiting are called Antidiuretics
c) Blood pressure in children is normally lower than in adults
- VIII. Write short notes on any FOUR of the following:** **4x4=16**
a) Hot application used in the care of patients b) Nursing care of a bed sore patient
c) Comfort devices and their uses d) Aseptic techniques
e) Therapeutic Communication f) Voluntary Agencies
- IX. Answer the Following:** **1+3+4=8**
a) Define Dehydration
b) List the sings and symptoms of Dehydration
c) Explain the nursing management of a patient with Dehydration
- X. Answer the Following:** **1+5=6**
a) Define Burns
b) Explain the First aid management of a patient with moderate degree burns
 or
a) Discuss the role of nurse in the care of a dying patient

KARANTAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM SUPPLEMENTARY EXAMINATION FEBRUARY- 2015
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** 1x4=4
a) Stomatitis b) Health c) Infection d) Dyspnoea
- II. Fill in the Blanks:** 1x4=4
a) When the body temperature is raised 105° F is called _____
b) Sterilization by steam under pressure is known as _____
c) The resistance to certain disease is artificially attained by _____
d) The oral cavity also called as _____
- III. Write short notes on any FOUR of the following:** 3x4=12
a) Qualities of a Nurse
b) Application of hot water bag c) Active and passive exercises
d) Care of the rubber goods e) Types of beds and their uses
- IV. Answer the Following:** 2+3+4=9
a) Define Bedsore
b) List the causes of Bedsore
c) Explain the Nursing care of a patient with Bedsore
- V. Answer the Following:** 2+3+4=9
a) Define Mental Health
b) Enumerate the characteristics of a mentally healthy person
c) Discuss the promotion of Mental Health in old age
or
a) Define Blood pressure
b) List factors causing variations in blood pressure
c) Explain the procedure of measuring blood pressure of a patient in your ward
- SECTION-II**
- VI. Choose the correct answer from the following:** 1x 3=3
a) The normal pulse rate of adult is
i. 72 bts/mt ii. 120 bts/mt iii. 140 bts/ mt
b) Constipation can be prevented by.
i. High fat diet ii. High fibre diet iii. High protein diet
c) Difference between axillary and rectal temperature is
i. 4°C ii. 2°C iii. 6°C
- VII. State whether the following statements are TRUE or FALSE** 1x4=4
a) One pint is equal 30ml
b) Evacuant enema relieves constipation
c) The presence of blood in the urine is called Haematuria
d) Drug used to relieve vomiting are called Anti inflammatory drugs
- VIII. Write short notes on any FOUR of the following:** 3x4=12
a) Health Team b) Nursing care of the patient with breathing difficulty
c) Disinfection of sharps and needles d) Instillation of ear drops
e) Characteristics of respiration
- IX. Answer the Following:** 1+3+5=9
a) Define Bed bath
b) List the purposes of bed bath
c) Explain the procedure of giving Bed bath to an unconscious patient
- X. Answer the Following:** 1+4+4=9
a) Define Fracture
b) Write the causes and types of Fracture
c) Discuss the first aid management of the patient with fracture leg

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION AUGUST- 2014
1ST year paper – III FUNDAMENTALS OF NURSING

Duration: 3 Hours

Max.Marks: 75

SECTION-I

- I. Give the meaning of the following:** **1x5=5**
a) Code of Ethics b) Comprehensive Nursing care c) Myopia
d) Anti Coagulants e) Observation
- II. Fill in the Blanks:** **1x3=3**
a) The total cessation of breathing is called _____
b) The inner part of the syringe is called _____
c) Blood pressure below normal is termed as _____
- III. Write short notes on any FOUR of the following:** **3x4=12**
a) Role of nursing in prevention and management in constitution
b) Care of the patient with Decubitus Ulcer c) Care of the patient with Fever
d) Nursing responsibilities in giving bath to an unconscious patient
e) Aseptic Technique in patient care
- IV. Answer the Following:** **1+3+4=8**
a) What is Bed making
b) List the purpose of Bed making
c) Explain the principles involved in bed making
- V. Answer the Following:** **2+8=10**
a) What is unconsciousness
b) Explain in detail the management of an unconscious patient
- SECTION-II**
- VI. Choose the correct answer from the following:** **1x 4=4**
a) Fundoscopy is used for the examination of _____
 i. Urinary Bladder ii. Ear iii. Eye
b) Hospital Acquired infection is known as.
 i. Droplet infection ii. Nosocomial infection iii. Contamination
c) The respiration regulating centre in the brain is
 i. Hypothalamus ii. Medulla Oblongata iii. Cerebellum
d) The most suitable position for giving an Enema is
 i. Left Lateral ii. Right lateral iii. Upright
- VII. State whether the following statements are TRUE or FALSE** **1x3=3**
a) Proper body alignment causes fatigue and deformity
b) Analgesic is the drug used to relieve pain
c) Laryngoscope is used to examine the larynx
- VIII. Write short notes on any THREE of the following:** **4x3=12**
a) Hot applications b) Cold applications
c) Importance communication in Nursing d) Comfort devices and their uses
- IX. Answer the Following:** **2+6=8**
a) Define Inhalation
b) Explain the nurse's responsibilities in the administration of Steam inhalation to a patient
- X. Answer the Following:** **1+4+5=10**
a) Define drug administration
b) Mention the different routes of drug administration.
c) Explain the procedure for oral Medication

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM SUPPLEMENTARY EXAMINATION FEBRUARY- 2014
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x5=5**
a) Pulse b) Dehydration c) Infusion
d) Laxatives e) Respiration
- II. Fill in the Blanks:** **1x3=3**
a) Bleeding from the gums is called _____
b) The presence of glucose in urine is called _____
c) Elimination of waste products from the body is called _____
- III. Write short notes on any FOUR of the following:** **3x4=12**
a) Care of patient with fever b) First Aid in earth quake
c) Care of storing medications d) Factors affecting pulse rate
e) Principles of bed making
- IV. Answer the Following:** **2+6=8**
a) What is Asepsis
b) Write in detail the steps in medical & surgical hand washing
- V. Answer the Following:** **2+8=10**
a) What is specimen collection
b) Stool specimen collection
- SECTION-II**
- VI. Choose the correct answer of the following:** **1x 4=4**
a) Cold sponging is reduce
 i. Temperature ii. Ear iii. Eye
b) Inflammation of the joint is called.
 i. Hypothalamus ii. Arthritis iii. Cerebellum
c) Difficulty in swallowing is
 i. Hypothalamus ii. Medulla Oblongata iii. Dysphagia
d) Lack of oxygen in the tissue called
 i. Anoxia ii. Right lateral iii. Upright
- VII. State whether the following statements are TURE or FALSE** **1x3=3**
a) Gingivitis is an inflammation of tongue
b) Diuretics decreases thenurine out put
c) Orthoptics is the cessation of breathing
- VIII. Write short notes on any THREE of the following:** **4x3=12**
a) Importance rest and sleep b) Care of rubber goods
c) Maintenance of intake and out put d) Types of Enema
e) Sitz bath
- IX. Answer the Following:** **1+3+4=8**
a) What is First aid
b) Explain the rules of First aid
c) Write the first aid measures in snake bite
- X. Answer the Following:** **10x1=10**
a) What are the methods of oxygen administration

KARANATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION SEPTEMBER- 2013
1ST year paper – III FUNDAMENTALS OF NURSNG

Duration:3 Hours

Max.Marks:75

SECTION-I

- I. Give the meaning of the following:** **1x4=4**
a) Profession b) Body Mechanics c) Nursing d) Edema
- II. Fill in the Blanks:** **1x4=4**
a) Inability to sleep is called _____
b) The resistance to certain disease is artificially attained by _____
c) _____ means difficulty in breathing.
d) _____ is stiffness of the body after death.
- III. Write short notes on any FOUR of the following:** **4x4=12**
a) Comprehensive Nursing Care
b) Function of a hospital
c) Characteristic of Respiration
d) Crisis
e) Care of dying patient
- IV. Answer the Following:** **1+3+6=10**
a) Define Bedsore
b) Mention the causes of Bedsore
c) Write the methods of prevention of Bedsore
- V. Answer the Following:** **1+7=8**
a) Define Unconsciousness
b) Explain the care of an unconscious patient

SECTION-II

- VI. Choose the correct answer from the following:** **1x 3=3**
a) Application of the drug to the Skin _____
 i. Inhalation ii. Insertion iii. Inunction
b) Hey's test is for the presence of _____
 i. Albumin ii. Acetone iii. Bile Salts
c) Inspection of body part is also called as _____
 i. Percussion ii. palpation iii. Observation
- VII. State whether the following statements are TURE or FALSE** **1x4=4**
a) Hospital acquired infection is known as Nosocomial infection
b) Drug used to relieve pain are called Antibiotics
c) The presence of blood in the Urine is called Polyuria
d) Stomach wash should be given in Acid Poisoning
- VIII. Write short notes on any THREE of the following:** **4x3=12**
a) Surgical Asepsis
b) Nursing management in case of Retention of Urine
c) Nurse's responsibilities in administration of Oral Medication
d) Elements of communication process
- IX. Answer the Following:** **1+3+6=10**
a) Define Nursing Process
b) State the steps of Nursing Process
c) Explain assessment as a step of Nursing Process
- X. Answer the Following:** **3+5=8**
a) Write the Golden Rules of First Aid
